Focus: A visit to the new Tesoro tasting room is a treat for all the senses. Whether you're exploring their many wines, enjoying the relaxed Tuscan ambiance, searching for the right gift, elegant wine accessories or home decor, the tasting room and gift shop offers a memorable experience.

Buzz and Kimberly Olson purchased a beautiful plot of land on Rancho California Road -- Temecula, California's main road through wine country. Its vineyards on rolling hills and spectacular 360° view of the local mountains and valleys reminded them of Tuscany, Italy and led them to dream of developing the 20 acres into an Italian country complex including a winery and Bed & Breakfast-Villa.

Joining forces with family and close friends, Mary Might, Tom & Jamie Copenhaver, and a top rate winemaker, Etienne Cowper, the Olsons are getting ready to begin construction on the winery and are now producing what they intend to be only the start of a beautiful array of premium Mediterranean style wines.

Tesoro's new wine tasting room is open in Old Town's Retail Shopping District on Old Town Front Street and open late -- after the winery's are done for the day. Here Tesoro shares a taste of its growing line up of luxury wines with you, shows you progress on the construction of the winery itself, as well as, shares some unique findings in there gift boutique.
